JANUARY 2023

Happy New Year!

2023 brings with it endless possibilities for business and personal growth. I hope you're setting your own lofty goals for the New Year, and I want to share some of my own New Year's Resolutions:

- Help more business owners achieve their goals
- Save our clients more time + money
- Work along side business owners
- Further my own education through training opportunities + new certifications
- Continue to grow my staff to better serve my clients

Want to hold each other accountable? I'd love for you to REPLY and let me know your 2023 goals (business or otherwise!).

Ready to get filing?

When do I need to file a 1099-NEC?

1099-NECs are due to be filed and furnished to the recipient by January 31, 2022. This means your forms must be postmarked and mailed by the deadline.

How do I file a 1099-NEC?

First, you'll need the Form W-9 of your contractors. The best practice is to request a W-9 prior to payment of any contractors. This form shows the contract name, address, and their SSN/EIN which will all be necessary information to file a 1099.

Who gets a 1099-NEC?

As a contractor, you'll most likely be sending and receiving 1099-NECs.

NEC stands for non-employee compensation. So, you'll need to have a relationship that the IRS would deem misclassifying an employee as a contractor, please consult with your tax accountant for help determining your contractor/employee statuses.

If you pay a non-employee at least \$600 in the taxable year for services performed for your business and they are:

- A corporation, government agency, or tax-exempt organization
- Paid by credit card
- Your employee

They need to issue them a 1099-NEC.
